--------------	------------------------	---------------	-------------

Permission is hereby granted to remove, construct, replace or widen a driveway, or driveways, in accordance with specifications indicated on the approved application and other instructions as may be provided by the construction Section, Field Engineers..
This permit is granted subject to the provisions of Chapter 115 of the Milwaukee Code of Ordinances which regulate the construction of driveways over and across any curb or sidewalk in the City of Milwaukee.
Before pouring any driveway, contact inspection. 286-3435.
Driveway area between curb and sidewalk is to be paved with concrete only, (unless otherwise specified) according to current paving specifications and regulations. The paving is to be done by a licensed concrete contractor, subject to conditions on reverse side of permit.
